United Press Service

work among the rural schools. Already 100 clubs, with a membership of 4,000 boys and girls have been formed, the all-engrossing activities being a contest in raising potatoes, sugar beets and other vegetables. Flowers are also being planted.

## POLICE NEW REPORT OF OPEN TOWN

(Continued from Page 1)

ing the arrest of some men in a room in a building in the alley between Fifth and Sixth streets a few weeks ago, and in spite of the fact that one of the men was assessed \$200, a game was opened up in the same room a few days later, and a game has been operated there whenever a "sucker" could be found who was willing to take a chance with his money. It has developed that the "chance" offered was one of the most desperate variety.

An attempt was made to interview the business man who is reported to have incurred heavy loss, but it was stated at his place of business that he was at home ill.

Members of the police force do not deny that they are convinced that gambling games are in operation, but they explain that they are not able to secure evidence. More than two weeks ago a member of the police force told The Herald:

"We are on the trail and will make arrests very soon."

None have been made since the time when one of the gamblers was fined \$200.

So openly have the games been operated during the past few weeks that it is a matter of general knowledge that one of the games was "fed" by six "boosters." It was and is the duty of these men to scrape the town, almost with a fine-toothed comb, to discover some person with money who can be induced to gamble.

It is a noteworthy fact in connection with the present situation that the saloon men of the city do not appear to be in sympathy with the gamblers.

"Such games as are now being conducted," said one saloon man this afternoon, "really hurt our business. In most cases the 'boosters' are not given a ghost of a chance to win, and the result is that there is invariably a cry of 'thief' when they emerge from the gambling rooms."

"The report that gambling is running wide open in Klamath Falls is ridiculous," said Chief of Police Joseph Smith this afternoon. "The police force is aware that games are sometimes run on the sly, and as often as we can get sufficient evidence of these games we arrest all the players. This has been our policy in the past, and will continue to be."

## HUERTA LIVING UP THE STATES

It is reported that 3,000 federal troops have been detailed to engage in conflict with the Maderistas.
